

Mennonite Central Committee
Anti-sexism work in 2019

Currently, MCC's anti-sexism work focuses in three primary areas/ways:

1. Within MCC staff
 - A. Our internal desire and commitment is to address sexism through trainings, workshops etc. within the structure of our organization.
 - B. Create opportunities for the women within MCC to further develop their leadership skills/gifts. We are looking to develop a mentorship and shadowing program for women.
2. MCC Denominational Constituencies
 - A. Walk alongside our six denominational constituencies as they seek to serve the church in this area.
 - B. Be a resource to our denominations by providing resources, learning tours, trainings, etc. as they seek to address changes, challenges and theological perspectives.
3. Resources:
 - A. The spring 2019 issue of Intersections on "Listening to local voices on gender"-
